

Advantages of the ASB GlassFloor

1. Long Durability – Glass does not wear out, the burnt in dots are made of ceramic
2. Not affected by humidity and heat.
3. Panels can easily be taken out and re-installed.
4. Athletes are full of enthusiasm about the unique elasticity/resilience.
5. The ceramic dots provide best slip resistance – without any risk of injury – the ceramic dots are durable and resistant to wear and tear – German Wormanship. Size and density can be produced to our customers' requirements.
6. The etching of the surface prevents reflections of light etc. on the floor's surface.
7. Revolutionary advertising opportunities – with full colour prints from underneath, which can be exchanged at any time. Very impressive with LED lighting (i.e. illuminated logos or advertising). Also LED large LED screens are possible. The floor can be refinanced through unique advertising opportunities.
8. Lines can be switched on individually, which is not possible with usual sports floors. This prevents the possibility to carry out some individual tournaments for many clubs so far.
9. This floor offers also the possibility to carry out parties and events. Neither shoe marks, nor liquids nor the glowing end of cigarettes, nor any seating or stages cause any problem for the glass floor.
10. Any colour of the floor is possible.
11. The floor can be used outdoors – it is not harmed by rain, sun etc.
12. LED marking lines are clearly visible with any source of illumination, also under direct sun light
13. Easiest cleaning and maintenance of the floor. No experts required. Around 50% less cleaning time and effort required under regular usage.
14. Reliable After Sales Service by ASB, a company that has been on the market for more than 40 years and is known for quality and reliability – Quality and the best service have brought us to where we are.
15. The floor meets all required standards for sports floors, including EN 14 904:2006
16. The EN 14 904:2006 standard is the standard required by most professional associations.
17. The floor is visually attractive and offers futuristic and professional style. The floor is stunning!
18. Possibility to carry out „sports in the dark“ with UV illumination and neon colours.
19. The GlassFloor can be used with roller skates and similar sports equipment.
20. Sharp/pointed objects cannot harm the floor, as this is the case with PVC or wooden floors.
21. 95% of the glass floor are recyclable. Due to its durability the floor is a very sustainable and cost effective investment.
